

## Add on Multiples of 10

How to add two-digit numbers (for example  $40 + 50$ ).

Place one number above the other so the tens' place digits and ones' place digits are lined up. Draw a line under the bottom number.

$$\begin{array}{r} 40 \\ \underline{50} \end{array}$$

Add the two ones' place digits. ( $0 + 0 = 0$ ). Place the zero below the line in the ones' place column.

$$\begin{array}{r} 40 \\ \underline{50} \\ 0 \end{array}$$

Add the numbers in the tens' place column ( $4 + 5 = 9$ ) and place the answer below the line and to the left of the ones' place sum

$$\begin{array}{r} 40 \\ \underline{50} \\ 90 \end{array}$$

## My Real Life

A) Amin read 20 books. Dalal read 40. How many books did they read?

$$\underline{20} + \underline{40} = \underline{60} \text{ books}$$

B) There are 30 students in class 2A. There are 30 students in Class 2B. How many children are there in all?

$$\underline{30} + \underline{30} = \underline{60} \text{ students}$$
