

## Centimeter and Meter

Centimeter is used to measure short lengths

Meters are used to measure distances and longer lengths

Meter (m)     1 m = 100  
                         cm

A meter is  
about half the  
height of a  
door.

Centimeter  
(cm)

A centimeter  
is about the  
width of a  
pencil.
