## Graphing Linear Equations

A) Plot the graph of the line.

1)  $3x - 2y = 6$

2)  $4x + 5y = 20$

3)  $x - 2y = -2$

4)  $6x + 5y = 30$

5)  $2x - y = 4$

6)  $8x - 3y = 24$

B) Graph the equation.

7)  $2x + 8y = 16$

8)  $x + 2y = 2$

9)  $x + y = 3$

10)  $2x + 9y = 18$

11)  $6x - y = 4$

12)  $7y + x = -3$

13)  $6x - y = -2$

14)  $4y - 3x = -4$
