

Name: _____

Measuring and Constructing Angles

1) Name all angles having P as their vertex.

Name all angles having W as their vertex.

2)

3)

4)

Tell whether each point is in the *interior*, *exterior*, or *on* the angle.

5)

6)

7)

Classify each angle as *acute*, *obtuse*, or *right*.

8)

9)

10)

11)

12)

13)

14) The measure of $\angle B$ is 138. Solve for x .

15) Find $m\angle ABC$ and $m\angle CBD$ if $m\angle ABD=120$

16) If JK bisects $\angle RJT$ and $\angle RJT$ is a right angle, find $m\angle 1$ and $m\angle 2$
